**2026**

**PRODUCT GUIDE**

## FINDING A BETTER WAY

It's a real problem: most tools for your firearms – most tools period – just aren't meant to be portable. Too big. Too clunky. Too limited in use. Nobody wants to drag a toolbox with them, and that means your hunt, your competition – whatever you're doing – could be ruined because you don't have the right tools on hand.

We looked at what was available and thought "there's got to be a better way."

## IT'S MORE THAN TOOLS, IT'S A SYSTEM

### PORTABLE

Don't drag large, single-use tools into the field. Bring The Works to build what you need on the spot and tackle nearly anything.

### PRECISION

With tools like our Individual Torque Limiters or All-in-One Torque Driver, you can work with incredible precision on the fly.

### PERFORMANCE

Made from the highest-quality materials and machined to fit each other precisely, parts are even magnetized to lock securely in place.

## TABLE OF CONTENTS

# ULTIMATE SIMPLICITY OR EXACTING PRECISION

Most of our toolkits come with torque tools. Many have the option of either our All-In-One Torque Driver that you turn until you reach the hash mark with the torque value you need, or our Individual Torque Limiters, which ratchet and spin at the designated torque value.

Learn about their functions and what will work best for you.

## AR EJECTOR & EXTRACTOR TOOL

- Upgrade your AR maintenance with the Fix It Sticks Ejector Tool. Designed for hassle-free installation and removal of ejectors and extractor pins on bolt assemblies. This fixture securely cradles the bolt, while the threaded bolt with the help of a Fix It Sticks T-way, compresses the ejector spring, aligning the roll pin for effortless removal with a punch. Compact and lightweight, the Ejector Tool is perfect for on-the-go maintenance, making it an essential addition for every AR shooter whether you're at the range, on the bench, or in the field.

SKU#:FISAR15BETP | ➤AR15

SKU#:FISAR10BETP | ➤AR10

## AR BOLT CATCH PIN PUNCH W/ NYLON GUARD

- The Fix It Sticks Bolt Catch Pin Punch is purpose built to go where normal punches can't. The block body design runs perpendicular to the receiver leaving more room for hammer contact and teamed up with the nylon scratch guard, less contact points for scratching your finish simplifying a once tricky process.

SKU#:FISBCPPP

## AR PIVOT PIN TOOL

- Remove the complexity of AR Pivot Pin installation with the Fix It Sticks Pivot Pin tools. Simply run the tool through the receiver to use as a guide for spring and detent installation, turn the tool to compress the detent, and push the pin in while simultaneously removing the tool.

SKU#:FISAR15PPTP | ➤AR15

SKU#:FISAR10PPTP | ➤AR10

## FIELD PISTOL SIGHT TOOL

Get your sights in line and accuracy back with the Fix It Sticks Field Pistol Sight Tool. Easily make adjustments in the field after a bump, drop, or bad install. Laser engraved scale for precise measurements. The tool collapses into a low profile block for storage in your kit.

SKU#:FISFSP

- ⚠ This tool is intended for making range adjustments only. A bench sight pusher is required for removal/installation.
- ⚠ Designed for use with polymer dovetail style rear sights (e.g. Glock™) check your application for compatibility.
- ⚠ Fix It Sticks T-Way or 1/4" driver required for operation

## FRONT SIGHT TOOL FOR GLOCK®

- Machined from solid steel bar stock, the 3/16" hex thin wall nut driver features an integrated magnet to hold the screw securely in place.

## MODEL 700® QUICK ACTION BRUSH

A quick and effective all-in-one cleaning tool to clear Model 700 actions of all dirt, carbon, and debris. Dual horizontal nylon brushes clean the raceways and hold the tool in position while the rod end actuates the rotating head's soft swab, cleaning the lug recesses.

## REMINGTON® 700 BOLT OPENER

- Access your Remington® 700 firing pin quickly and easily with the Fix It Sticks custom Remington 700 Bolt Opener bit. Featuring a steel body with polymer bushing to protect the bolt plug from damage, the bit levers the firing pin head with a "bottle opener" action. The metal 1/4" hex base works with any 1/4" driver including Fix It Sticks tools or our T-Way Wrench.

SKU#:FIS-RBO

## 1911 BUSHING WRENCH

- The 1911 Bushing Tool makes disassembling your 1911 faster and easier than ever. Made from a molded synthetic polymer, this custom bit won't mar or scratch your pistol's finish when removing the barrel bushing. The bit is designed to work with both Government Model and Officers bushings, and its metal works with any 1/4" driver, including Fix It Sticks tools and our T-Way Wrench (not included).

SKU#:FIS1911P

## UNIVERSAL CHOKE TUBE WRENCH

- The Fix It Sticks custom Universal Choke Tube Wrench is designed to remove and install the most common shotgun choke tubes, from .410 to 10 gauge, at the range or in field. Made from solid steel, it works with any standard 1/4" driver including Fix It Sticks tools or our T-Way wrench.

SKU#:FISSCWP

## BROADHEAD WRENCH

- The Fix It Sticks Broadhead Wrench is made from a special composite material to protect your blade edges when tightening or mounting on a shaft. Compatible with most fixed blade broadheads, it works with Fix It Sticks tools, or in any 1/4" driver. It's a must have for bow and crossbow hunters.

SKU#:FISBHP

## KNIFE SHARPENER

- Includes both ceramic and carbide V-Style sharpeners, set at 22.5 degrees for a 45 degree inclusive angle. The Knife Sharpener Bit works with Fix It Sticks tools as a handle or any standard 1/4" driver.

## PARTS HOLDERS 3-PACK

Customize your kit to carry all the extras you need. Add additional brushes, tools, and spare parts to your current pack out with Fix It Sticks' Part Holders. The highly-durable polycarbonate tubes help protect and organize additional pieces and are sealed off from the elements with the rubber lid system. The 1/4" bit tab on the bottom integrates into the FIS bit holders keeping everything secure and in place.

SKU#:FISPHS-3P | ► Small (Internal .49" x 2.4") -3-PACK

SKU#:FISPHM-3P | ► Medium (Internal .8" x 2.4") -3-PACK

SKU#:FISPHL-3P | ► Large (Internal 2.9" x .75" x 1.15") -3-PACK

## STACKABLE BIT HOLDER

- Pack out more with your current case. The Stackable Bit Holder acts as an expansion to the 21 bit holder found in the Fix It Sticks' Medium and Large cases\*. With twelve 1/4" Bit slots this holder expands your storage capacity by ten bits without upgrading to a larger case.

\*Large Case: The Works kits  
Medium Case: AR Toolkit, MPX/MCX Toolkit, and Rifle & Optics Toolkit with Individual Torque Limiters

SKU#:FISAQBHP

Case not included

## 24 BIT HOLDER W/ MOLLE CLIP

- Carry more and access your bits quicker with the updated 24 Bit Holder. The new center cutout allows space for your finger to push you 1/4" bits out quickly while still having a strong hold on the tools. The backside Molle clip works to securely hold your tools in place in the Fix It Sticks XL & XXL\* case divider panels or any other Molle strapping.
